

MILIOT SCIENCE

BORN IN FINLAND

End of year laboratory news and offers.

Take your weighing experience to an unprecedented level with the new **Radwag ELLIPSIS 5Y series balances** with markets most advanced indicator/control panel. **Radwag ELLIPSIS XA 110.5Y and XA 110.5Y.A analytical balances now on sale.**

Radwag ELLIPSIS XA 110.5Y.A (pictured), 110g/0.01mg, *discounted price 9495,- €*

- integrated antistatic ionizer, fully automatic balance leveling, automatic chamber doors
- [specifications](#) ELLIPSIS 5Y.A [leaflet](#)

Radwag ELLIPSIS XA 110.5Y, 110g/0.01mg, *discounted price 5495,- €*

- semi-automatic balance leveling, manually opened chamber doors
- [specifications](#) ELLIPSIS 5Y [leaflet](#)

Radwag ELLIPSIS 5Y series indicator/control panel key features:

- large 10" touch screen with user selectable light or dark mode
- extended user security: face recognition camera, fingerprint reader and RFID reader. RFID also works as e.g. product or formulation ingredients reader
- integrated microphone for voice notes or messages as well as for giving simple orders to balance during touch-free weighing
- 4 colour ambient light informs status of balance during different weighing procedures
- connection to mobile device (iOS and Android) for balance remote control
- extended connectivity such as HDMI, Media Box, USB, Wi-Fi®, ethernet
- very versatile balance software with up to 17 working modes, 24 databases, BWP – Better Weighing Practice system, extended monitoring of environmental conditions, large 32GB internal memory, pdf reader and much more
- customizable indicator display with e.g. widgets, handy library – check your most recent weighing, graphical presentation of results, insert text notes or comments

→ We also offer all weighing accessories such as calibration weights and external ionizers

MPW M-BASIC centrifuge with innovative **hybrid swing-out and angle rotor 12815C** (Set 1) including all accessories, *package price 1995,- €*.

The **MPW M-BASIC** centrifuge comes with a unique hybrid rotor that works as both a 90° swing-out rotor and as a 45° angle rotor, i.e. without the need of normal rotor replacement. All you need to do is to rotate the rotor buckets into the desired positions and the device is ready for centrifugation. The rotor fits 8x15mL or 2x50mL tubes (e.g. Falcon) or 2x60mL (PRP tubes), maximum speed is 4000rpm (max RCF 2469xg). All necessary accessories such as rotor buckets, hangers, round carriers and pads etc. are included in the package!

Check out the centrifuge and hybrid rotor in action here: [demovideo](#)

MPW M-BASIC centrifuge features.:

- clear LED display • program memory • fast and smooth acceleration/deceleration profiles • timer • maintenance-free induction motor • low noise level • imbalance detection • low power consumption • compact size • HOLD and SHORT functions • conforms to safety regulations •

Easy, space saving, reliable and powerful incubator with stirring. 8.5L plastic water bath with lid and transferable thermostat with adjustable water circulation and stable $\pm 0.1^{\circ}\text{C}$ temperature control. Thin 4cm magnetic stirrer, stainless steel enclosure, 4-placed stirrer with own speed control for each place, max 2200rpm and 2L for each place.

→ We offer the complete range of **Elmi** solutions for mixing, heating and centrifugation!

BASIC LABORATORY INSTRUMENTS AND EQUIPMENTS ON SALE:

- **Corning-HTL Discovery Pro pipettes**, starter pack, *price 595,- €*.
4pcs single-channel variable volume pipettes (0.5-10, 2-20, 20-200 and 100-1000 μ L), ergonomic, precise and very light weighted to use, compatible with all major tip brands, pack includes plexi pipette stand, starter pack of tips, 4 hangers and calibration tools
[specifications](#)
- **Miliot EcoLab** unique ecological **tube stands**, *price 29,- € / 20pcs*.
strong cardboard that is easy to recycle, durable for many years when used in normal conditions or e.g. in freezers, delivered flat and assembled in less than 30 s, size options: 16x50mL, 36x15mL and 36x10-12mL tubes
[specifications](#)
- **Optika C-HB microscope camera**, 2MP 1080p HDMI, *price 319,- €*.
SONY CMOS sensor, universal C-mount microscope connectivity, HDMI cable, 16GB SD card with built-in software, cordless mouse
[specifications](#)
- **Radwag PS.R1 series precision balances**, *price 595,- €*.
following models on offer: [PS 600.R1](#) (600g/1mg), [PS 750.R1](#) (750g/1mg), [PS 1000.R1](#) (1000g/1mg), [PS 3500.R1.M](#) (3.5kg/10mg), [PS 4500.R1.M](#) (4.5kg/10mg), [PS 6100.R1.M](#) (6.1kg/10mg), Wi-Fi® connection included in all discounted models
- **RSLab RS-0506 centrifuge with angle rotor**, *price 495,- €*.
basic centrifuge for 6x 1.5 – 15mL tubes, speed 300-5000rpm, clear LCD display, rpm/RCF selection, two program memory and quick selection, maintenance-free, all needed adapters included
[specifications](#)
- **RSLab RS-1008 mini centrifuge**, max 7000rpm/2680xg, *price 195,- €*.
compact and light weighted centrifuge for microfiltrations and quick spin-downs, two rotors, rotor capacity 8x 0.2/0.5/1.5/2.0mL tubes and 4 PCR strips (8x0.2mL), tool-free rotor change, low noise \leq 45dB
